

JOFEMAR BLUETEC G23

Bean-to-Cup Coffee Machine

The new table-top range of machines represents the perfect combination of technological innovation, interactivity, special features and an elegant design. With up to 11 selection buttons, depending on the model, the new G23 guarantees the best coffee offer and it stands out for its versatility and functionality when it comes to satisfy the most demanding tastes.

Featuring Jofemar's espresso coffee brewer, equips a motorised water distributor and an insulated aluminium boiler which improves the machine energy efficiency. With an autonomy of 150 drinks, up to 230 if assembled to the support console, equips three canisters for instant products and another one for Coffee beans, two whippers and are fitted to equip coin mechanism or user cards.
