

SAECO MAGIC

Bean-to-Cup Coffee Machine

Magic represents the latest evolution of coffee machines from Saeco Professional. But it is also a machine that marks a clear break with the past. It has new shapes, completely redesigned, and performance at the top of its category in terms of quality and variety of beverages. The coffee break becomes from a daily gesture “a way of life” to be lived with style and taste, a moment of true relaxation to pamper yourself while savouring your favourite drink.
